

FB M-4060

Crystal Label UV Printer

Crystal Label UV Printer FB M-4060

CMYK+W+V full color output, Newly upgraded inkjet technology

- Using PrecisionCore technology, micro-piezoelectric technology makes the print head compact, high speed, high quality and durable.
- The printing effect is comparable to HD photos, and the printing accuracy is as small as 0.2 mm
- Epson VSDT(Variable Sized Droplet Technology) allows you to freely control the size of the ink drop and show more details
- Independent automatic device, easy disassembly.
Automatic collection + tear film + laminating film
